

MINDS *that* MATTER

Connors and Snap-IV Questionnaires

Dear Teachers and School Counselors,

I am currently evaluating _____ DOB: _____ in my office for behavioral issues. I appreciate any feedback you can provide me during this evaluation process. My goal is to obtain more information that will enable me to form a specific plan in order to help this child become a more successful student. Enclosed are questionnaires that should be completed individually by current teachers and counselors, and teachers and counselors in the preceding year who were involved directly in this child's education.

Please send the information directly to my office by fax or in a sealed envelope to the child's parents who can then send the information to me. I appreciate all the information that you can provide for me. I recognize the crucial role you play in this child's education and development. If you have any additional questions or concerns, or if you feel that you have concerns best discussed directly, please do not hesitate to contact my office.

Thank you.

Dr. Poonam Khanna, D.O.
